

“No-Rust” Bearing Housed Units

Corrosion-Proof Ball Bearing Housed Units Withstand the Toughest Conditions in Food Processing and Packaging

“No-Rust” Kilian Housed Units Combine Corrosion-Proof Components for Extended Life in Difficult Applications

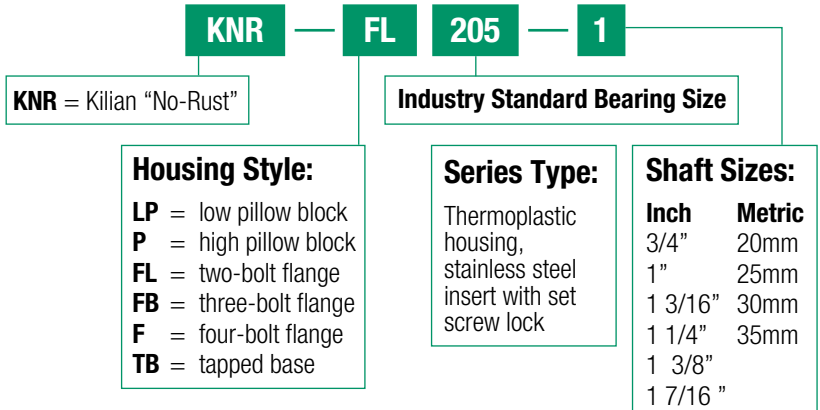

The advanced thermoplastic housing and special stainless steel bearing insert form a complete value package that stands up to a wide range of common corrosives and contaminants. Specifically designed for moderate loads and speeds in processing and packaging, the Kilian unit has excellent resistance to acids, alkalis, solvents, detergents, oils and other chemicals. Kilian solid base housings prevent any collection of bacteria. The special stainless steel bearing insert offers the ultimate in corrosion resistance. The wide inner-ring design provides excellent shaft support and setscrew locking.

Kilian “No-Rust” Benefits:

- Will Not Rust
- Reduces Maintenance Cost
- Thrives in Washdown Areas
- Extends Service Life

Kilian Nomenclature

Order Kilian bearing inserts separately or in thermoplastic housings. Inserts and housings are interchangeable with industry standard envelope dimensions. Standard end caps are available.
